Career Objective

I am a passionate and driven Computer Science and Engineering student at AIUB with a strong interest in software development, system design, and full-stack web development. I enjoy building real-world, database-driven applications using object-oriented principles and modern frontend and backend technologies. I continuously strive to enhance my coding, problem-solving, and collaborative skills to develop reliable, scalable, and user-focused software solutions that address real-world challenges.

Education

B.Sc. in Computer Science and Engineering

CGPA: 3.24 (Current)

Expected: 2026

American International University-Bangladesh (AIUB)

Kye Projects

- **Smart Road Management System:** Python — Road hazard and traffic flow monitoring system to improve safety and efficiency.
- **Bank Management System:** Java (OOP), PHP, MySQL — CLI-based Java system and multi-role web application (Admin, Customer, Employee).
- **Hotel Management System:** C#, .NET (Desktop Application), MySQL — Desktop-based hotel management system featuring room booking, customer management, check-in/check-out handling, billing, and administrative controls.
- **Blog Application:** HTML, CSS, JavaScript, PHP / Django (Basic) — Full-stack blog platform with user authentication and content management.

Research Project

Automated Pothole Detection using Deep Learning

AIUB — Spring 2025 — Supervisor: Prof. Dr. Md. Asraf Ali

Developed a CNN-based pothole detection system using MobileNetV2, ResNet50, VGG16, and a custom model. Achieved 89% accuracy with MobileNetV2. Applied transfer learning, preprocessing, and evaluation using confusion matrix and F1-score. Optimized for real-time edge deployment in smart cities.

Skills

Programming Languages:

C, C++, Java, Python, C#, PHP, JavaScript.

Web Technologies:

HTML, CSS, React.js, Tailwind CSS.

Tools/Frameworks:

Arduino, NodeMCU, Django (Basic), .NET, Git, GitHub, Bootstrap, OpenGL, MySQL, Oracle, Matlab, Colab, Latex, Jupyter.

Soft Skills:

Teamwork, Problem-solving, Communication, Research Writing, Time Management.

AI/ML:

TensorFlow, Scikit-learn, NumPy, Pandas, CNN, Transfer Learning, Model Evaluation.

Certifications & Achievements

Govt. Certified Python Django Course – 2024 &

University Activation Programme – 2025

Languages: Bengali (Native), English (Fluent)
